CIRCULAR

This is to inform to the students that the Remedial classes will be conducted for 7th, 5th, 3rd (2020-21 ODD) semester students between 1.30 pm to 4.30 pm. These classes will be beneficial to the students as it will be covering important topics from exam point of view and guide students to prepare for their examinations. Interested students can benefit from this opportunity.

REPORT ON MEASURES TAKEN TO IMPROVE SLOW LEARNERS

1) Identifying slow learners:

The slow learners were identified at the beginning of academic year with the help of their mentors. Slow learners were identified after conducting the first internal examination. A special focus was given on such students by the class teachers with the help of subject teachers.

2) Counseling the Students:

Student counseling was carried out by the counseling officer available in the college campus, on academic matters, personal problems, placement and career planning. The counseling was done based on need and request of the students.

3) Mentoring the students:

Along with counseling by the course teacher and mentor, the class teacher also conducted counseling for students, especially for slow learners in a particular subjects. The performance of the students was analysed and guidance was given to improve further.

4) Remedial Class for Slow learners:

Slow learners were identified by the respective subject teachers based on the student's previous year results and also by the performance of 1st and 2nd internal assessment. The remedial class was conducted in order to help them to score better marks in their 3rd and final university examination.

5) Personal guidance on preparation for examination:

Slow learners were supported by the class teachers and subject teachers in the form providing study materials, question bank and review of previous year question papers. Personal guidance was provided to them during the time of end semester examination.

Report on Remedial Classes 2020-21

Odd Semester

Semester: Third Semester

No. of Beneficiaries: 66

Overview of the Remedial Classes:

The Department of Computer Science and Engineering had conducted remedial classes for III Semester BE students for section A, B, C. The remedial classes were conducted by following faculties for following subjects as shown in below table.

Objective:

To provide learning support to the students who lag far behind their counterparts, in order to improve their academic performance in the end semester examination.

The remedial classes were conducted as per the following schedule:

DON BOSCO INSTITUTE OF TECHNOLOGY

Outcome:

The department optimisms that these sessions would give additional guidance to the students who find difficulties in understanding subjects and also would increase the confidence of the students to increase the academic performance. This should considerably increase the pass percentage and reduce the burden of arrears in the coming semester.

The following students attended the remedial classes.

A REPORT
ON

“Remedial Coaching for Slow Learners”

Organised by:

Department of Chemistry

Coordinated by

Dr. Shubha J P
PROFESSOR DBIT

Held at

DBIT

2020-2021

I Sem Remedial Coaching

The college, with the consent of the management and the Principal, runs remedial coaching Classes for students who are identified to be slow learners based on their performance in the Internal assessment and are in need of special care and support in academics. The coaching programme is coordinated by a senior faculty nominated by the Principal. The classes are conducted without disturbing the regular instructional hours. A committee consisting of the Principal, co-ordinator and a group of faculty from various departments monitor the coaching programme regularly. The progress of the students is evaluated on the basis of their results in the arrear examination.

DBIT undertakes various programmes for slow learners through remedial classes. For slow learner's Remedial courses, coaching classes and students counselling program are initiated. Further the faculty members also put efforts to provide guidance for the slow learners. This has greatly helped to improve the performance of students in their examinations.
