BATCH:2020

DATE: 29.12.2021 @ 2:00PM

S.No	SUBJECT CODE& NAME	POINTS DISCUSSED		SOLUTION GIVEN
1	18EC31-Transform Calculus, Fourier series and Numerical Techniques	Assignments	Submitted	Suggested to meet teachers for any difficulties in assignment solutions
		Syllabus coverage	2 Modules	Surprise tests and conducted quiz to improve student's performance
		IA performance, Surprise tests, Quiz	Good, No failures	Students are informed to avoid failure in further tests. Surprise tests-1 Quiz-1 conducted
		Other Points	University Questions & solutions needed by students	Informed subject handling faculty to solve model question papers in class
2	18EC32- Network theory	Assignments	Submitted	Suggested to meet teachers for any difficulties in assignment solutions
		Syllabus coverage	2 Modules completed	Surprise tests are given to improve student's performance.
		IA performance, Surprise tests, Quiz	1 test till now, few failures	Students are informed to improve the performance in next tests
		Other Points	University Questions & solutions needed by students, Surprise tests-1 Quiz-1.	Informed subject handling faculty
3	18EC33-Electronic Devices	Assignments	Few of them not submitted	Advised to submit on time
		Syllabus coverage	2 Modules completed, classes Going Well	Surprise tests are given to improve student's performance and solved model question papers in the class
		IA performance, Surprise tests, Quiz	1 test till now, Less number of failures	Students are informed to avoid failure in further tests. Surprise tests-2
		Other Points	University Questions & solutions needed by students. Surprise tests-1 Quiz-1.	Informed subject handling faculty
4	18EC34-Digital	Assignments	Submitted	Advised to submit on time

	System Design	Syllabus coverage	2 Modules completed, Going Well	Surprise tests are given to improve student's performance.
		IA performance, Surprise tests, Quiz	1 test till now, few failures	Students are informed to avoid failure in further tests.
		Other Points	University Questions & solutions needed by students.	Informed subject handling faculty
6.	18EC35-Computer Organization and Architecture	Assignments	Submitted	Advised to submit on time
		Syllabus coverage	2 Modules completed, Going Well	Surprise tests are given to improve student's performance.
		IA performance, Surprise tests, Quiz	1 tests till now, few failures	Students are informed to avoid failure in further tests
		Other Points	University Questions & solutions needed by students.	Informed subject handling faculty
7.	18EC36-Power Electronics and Instrumentation	Assignments	Submitted	Advised to submit on time
		Syllabus coverage	2 Modules completed, Going Well	Surprise tests are given to improve student's performance.
		IA performance, Surprise tests, Quiz	1 test till now, No failures	Students are informed to avoid failure in further tests. Surprise tests-1 Quiz-1 conducted
		Other Points	University Questions & solutions needed by students, Surprise tests-1.	Informed subject handling faculty

Note: 1. Students are instructed to complete the assignments within the schedule.

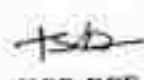

2. Students are instructed to attend all the classes regularly

3. Suggested to come and approach teachers for solutions in Network theory and control systems

28/05/2022	4	OFFLINE CLASS COMMITTEE MEETING	SYLLABUS OF SUBJECT PORTION, PROCTOR MENTORING, INTERNAL ASSESMENT, QUIZ & OTHERS...	03:00 PM TO 04:00 PM

The discussion with students raised some points as below which were later addressed by the class teachers and academic coordinators with feasible solutions.

Students are asked to concentrate on their project external viva voce.

Students are asked to conduct the plagiarism check for their respective project 2 to 3 times otherwise there would be penalty from VTU side.

Finance students are asked to focus more on indirect tax and financial derivatives since many failures in the same subjects.

Students are asked to attend placement classes regularly.

Students are asked to take placement drive seriously.

**ACADEMIC YEAR (2021-2022)****DAC COMMITTEE REPORT****Date: -26/03/2022**

With reference to the circular dated 14-03-2022, DAC meeting was held at the Department meeting room for addressing and reviewing the departmental activities for the academic year 2021-22.

Agenda

- Defining department vision and mission.
- Pursuit of excellence/centre of excellence and ethical values.
- Improvement in Quality and professionalism.
- Industry -institute interaction.
- Analysis of various survey forms.
- Attainment of CO's with PO's with PEO's.
- Curriculum (NEP) feedback.

The Meeting had started 10.30 A.M. All committee members were present during the meeting. The chairman of the committee Dr. A N Maheswarappa welcomed the members. One of the convener of the committee Dr. Jai Prakash Prasad had given an introduction about the department and also requested to give suggestions for the improvement in the departmental activities. During the meeting the following members were present,

Sl.no	Name	Designation	Organisation/Company	Role
1	Dr. A.N Maheswarappa	Professor & HOD	DBIT, Bangalore	Chairman
2	Dr. Jai Parkash Prasad	Associate Professor	DBIT, Bangalore	Convener
3	Dr. Chandrashekar N.S	Associate Professor	DBIT, Bangalore	Convener
4	Mr. Dharmendra Rati	Cluster Delivery Head	WIPRO Technologies Bangalore	Industry Expert
5	Dr. Ravi B. C	Senior Architect	Mphasis Bangalore	Industry Expert
6	Dr. Prasanna Kumar A M	Professor	ACS College of Engineering	Academic Expert
7	Ms. Harini Subramanian	Associate Developer	Alumni, DBIT	Member
8	Ms. Tejaswini Jayashanker	Machine Learning Intern Trainee	Alumni, DBIT	Member
9	Ms. Nishashree S	Student	DBIT	Member
10	Mr. Nuthan Y.J	Student	DBIT	Member

The committee verified the course outcome, program outcome and Program Specific Outcome attained through direct and indirect methods for 2016 and 2017 batch students and observed the following:

In 2016 batch, the attainment score of courses Analog Electronic Circuits, Network Analysis, Electronic Instrumentation, DSP, microcontroller and power electronics were less compared to other courses. In 2017 batch, the attainment score of courses Signals and System, Control System, Principles of Communication Systems, Linear Integrated Circuits, DSP and power electronics were less compared to other courses. In 2018 batch, the attainment score of courses Network Theory, DSP, Power Electronics and Electromagnetic waves were less compared to other courses. These schemes emphasize more on professional core courses than other areas like internship, project, humanities and social sciences.

The NEP proposed by VTU for 2021 scheme has holistic approach of overall development of student by balancing the credits over professional core courses and other areas. The scheme has provided credits on unfocused areas like Integrated Professional Core Courses, Universal Human Value Courses and Ability Enhancement Courses.

Sl. No	Course area	2017		2018		2021	
		#Courses	Credits	# Courses	Credits	No. of Courses	Credits

12.	Ability enhancement course	-	-	-	-	7	7
	Total	64	200	63	175	60	160

The following were also discussed during the meeting:

1. Mr. Dharmendra Rati gave suggestion about the updating of Vision and Mission, by upskilling the students to be "Globally and Technically Competent". He also suggested the definition of Vision and Mission through continuous learning and improvement. Also, the students must be able to adapt to any changes.
2. Dr. Ravi B.C suggested that there should be a close interaction between the Professors and the Tech Experts (Alumni/ Non-Alumni) as the Professors are up to date with the latest technology used in the industry and to what extent are the students ready to face the Real-world challenge. This can be done through a Trainer-Trainee Model. Either the Professor can train or bring external trainers. Alumni providing hands-on or seminars on the technology they are working on.
3. Dr. Prasanna Kumar A.M. also suggested to Introduce guidance from the Industry during Classes. This helps the students to understand that the concept they are learning in class is used in the industry. Introducing Core skill-building sessions will be more interactive. This also maps the college requirements to professionals.
4. Ms. Tejaswini Jayshanker, an alumni of DBIT and also member of DAC, has suggested to introduce Hackathons, Paper presentations, Seminars and mini-projects based on IEEE papers from the 5th Semester onwards, attracting more participation through Rewards and recognition. This helps in understanding the calibre of the students and where they lack and how to compensate. It also becomes a certificate they can add to their resumes. These challenges can be a little advanced level, similar to challenges in the industry she also suggested to use licensed software available in the Department such as Cadence/Oracle/Keil/Matlab/VLSI related/ HDL related, not just during the semester laboratories but also to be knowledgeable enough to build a Proof of Concept (POC) stage, End to End Development/Modeling/deployment as mini-projects or Final year projects.
5. Ms. Harinisubramanian, alumni DBIT, member of DAC has proposed her suggestion telling that every student must and should have a GitHub account from the 5th semester and all Project codes/Practice codes/Lab codes (in Private repository), irrespective of the programming language should be available on GitHub, with their mentors as Reviewer of the code. This can also be used during their final year projects (if software) during the Project phases to check their progress. This is similar to the Agile SDLC used in Corporate today. Students who wish to advance their careers in Data Science can start with Kaggle and submit their solutions to Challenges, there are also free certifications from Kaggle. There are multiple websites for numerous domains. If students can contribute to Git/ Write blogs, it will boost their confidence and also add weightage to their resumes.
6. The department can take up Business/Team accounts on Udemy/Coursera and such learning platforms for students who can be certified in certain softwares/programming languages or even Hardware courses. This helps them in upskilling and also, they have certificates that can be added to their resumes.
7. Dr. N.S. Chandrashekar Associate professor DBIT, member of the DAC has suggested to display best projects of previous batches during Forum activities can bring enthusiasm and interest among students. Also, the Professors can have 3-4 projects for each group and present them to the students. If the students have a good project and wish not to go ahead with the one suggested by the Department, they should be presenting their idea to the respective mentors. In this way, no Student group will buy the project from consultancies and they will also learn some hands-on.
8. Dr. A.N. Maheswarappa HoD ECE, chairman of DAC suggested that the students should undergo internship programme for Microsoft, Microsoft student partner during their 2nd and 3rd year of Engineering will boost their confidence and also bring a good name to our

department and to train the students from the 6th semester onwards to keep their profile on LinkedIn, Naukri and other websites updated. They can add GitHub and LinkedIn links on their resumes. In this way, the students are industry ready even before the placements. Students must learn how to present their best side to the outside world.

14. Ms. Nishashree S and Mr. Nathan Y.J student DBIT, member of DAC suggest to include Alumni for some Seminars/Hands-on. This is will improve the relations with the Alumni network and also between Alumni and the present students.

7. Ms. Madhura K mentioned that animation modal should be included in teaching.
8. The revised Vision and Mission of the department and the PEOs and PSOs of the program were placed in front of the committee members for their opinion and feedback. Here with the approval was given. They are mentioned here.

VISION

Aspire to be a center of excellence to impart value based education in the field of Electrical and Electronics Engineering to transform the young minds to serve the societal needs.

MISSION

1. To provide theoretical and practical knowledge in the field of Electrical and Electronics Engineering.
2. To provide learning environment to gain knowledge of inter-disciplinary domains.
3. To offer value-based education through continuous improvement.
4. To collaborate with industry to facilitate learning beyond the curriculum.

PROGRAM SPECIFIC OUTCOMES

PSO1: Apply the fundamentals of mathematics, electrical and electronics engineering knowledge to formulate the problems.

PSO2: Use the tools and techniques to implement the solutions in the area of electrical and electronic systems.

PSO3: Develop the ability of interpersonal skills for successful adaptation in multi disciplinary platform.

PROGRAM EDUCATIONAL OBJECTIVES

PEO 1: To contribute in implementation of products and services through technology development in the area of electrical engineering and allied fields.

PEO 2: To instill the graduates for professional development through higher education and lifelong learning keeping abreast of the technology and the practices in real time.

PEO 3: To motivate engineers for leadership qualities and spirit of entrepreneurship.

9. The matrix for the justification of PEO for the Mission of the department was as well placed. Some suggestions were implemented during the meeting. It is mentioned in the below table.

Agenda in Detail

Dr Ranjini P S, the Convener of the committee welcomed the members present to the meeting and made the opening remarks.

The objective of the meeting was to review the activities of this committee during the last 6 months. The student's representatives who are the part of this committee has expressed their satisfaction regarding the care and affection showed by the authorities to ensure their safety inside the campus. They also added that the student community is happy with the teaching learning process, facilities and teaching quality and services.

Also a discussion had been made on anonymous letters received in the suggestion boxes, which has been installed in the various Blocks of the Institution. The anonymous written complaint received from the student was about the important point that the college should focus on organising more sessions on Soft Skills which will help the students to increase their confidence level to appear for the Interviews.

“WOMENS DAY CELEBRATION”

Objectives: The Women’s Day is a global day celebrating the social, Economic, cultural and political achievements of women. The day also marks a call to action for celebrating gender parity. Significant activity is witnessed world wide as groups come together to celebrate women’s achievements or rally for women’s equality. Marked annually on 8th March, International Women’s Day is commemorated in a variety of ways worldwide, it is a public holiday in several countries and observed socially or locally in others to celebrate and promote the achievements of women. It is an occasion to celebrate the progress made towards achieving gender equality and women’s empowerment but also to critically reflect on those accomplishments and strive for greater momentum towards gender equality world wide.

The main objective is

- To express love and gratitude towards women’s contribution to our lives and society
- To honor the power and struggles of women for their valuable contribution to the growth of the Institution.
- Awareness to the women about safety measures.

Brief Report on the event

Don Bosco Institute of Technology gives utmost importance to gender equality and the celebration of International Womens Day on 8th March 2022 can be considered as a token of appreciation for all our women employees and girls students in our Institution. Ms. Bhavani Swathi, Founder and CEO, Banyan, was the Chief guest of the day.

We along with Head of the Institution, Principal Dr. T. Hemadri Naidu, Chief Guest Ms. Bhavani Swathi, HOD’s of Various department, Teaching Staff, Non teaching staff, Housekeeping staff, and our dear students join hands together and celebrated the International Women’s Day ceremony in our Institute on 8th March 2022 in our Institute with a lamp lighting ceremony. The programme was started at 10.30 a.m with a traditional Dance form - Yakshagana which was presented by Ms. Sahana, The first year Electronics & Communication Engineering student.

The invocation song was done by Ms. Shrinidhi Hegde of first semester Information Science & Engineering student and the master of ceremony of the programme was hosted by Mrs. Usha. G, Assistant Professor, Department of M. B. A. The welcome address was done by Dr. Ranjini. P. S, Convener of the Women Empowerment Cell/Anti Sexual Harassment Committee.

There was a marvellous presentation of a Kannada Poem written and sung by Dr. Anasuya. N. Jadagerimath, HOD, Department of AIML expressing the struggles and achievements of a woman in her life. Principal addressed the gathering by his inspiring words about the importance of women’s day by

saying “women rule almost in every field of life and work at par with men. We cannot deny, that it at home or at work, they do it all with so much zeal and ace in each one of it in their own way. It’s a day when everyone shows appreciation and respect towards women”. He also added that she plays the role of daughter, sister, wife and mother. She equally balances personal and professional life. Women have a robust spirit which makes them excel in their fields. They contribute massively to the lives of their family members and the country. For many people, the role of women is limited to household chores only. However, this needs to change as women deserve equal freedom and opportunities in everything like men.

The Chief Guest Ms. Bhavani Swathi addressed the gathering with her inspiring words and heart touching lively example and enlighten the minds the necessity of better understanding of opposite gender in every aspect of the life. She also added that education and Job is very important for a girl child to face all kind of challenges in the life. She inspired our girl students by her own story how she has come up in her life and became an entrepreneur. Also she highlighted about the safety measures to be taken care by ladies in the workplace. The Resource person was opened for the discussion at the end.

The Institution has also arranged a felicitation programme for the non teaching lady staff to appreciate their valuable services for the growth of the Institution. The following Non Teaching Female Staff members are felicitated during the programme.

Summary

In conclusion, and as we celebrate the centenary of International Women's Day this year, we are to take more advantage of the potentials and talents of half of the humanity, and not just seek to consecrate gender equality in principle. Indeed, women could greatly contribute to the upbringing and education, to giving the upper hand to the logic of peace, to reducing poverty, hunger, disease and environmental degradation, and to promoting sustainable development opportunities. The participants were our students and faculty members. They have given a very good feedback about the programme. The following were the points highlighted by the members about the programme.

- The theme and objective of the programme were Well explained
- The event was well organized.
The event met its goals.
- event's content was useful.
- Interaction with the students makes all of us to feel the confidence within our self.
