## I Semester Remedial Coaching

The college, with the consent of the management and the Principal, runs remedial coaching classes for students who are identified to be slow learners based on their performance in the Internal assessment and are in need of special care and support in academics. The coaching programme is coordinated by a senior faculty nominated by the Principal. The classes are conducted without disturbing the regular instructional hours. A committee consisting of the Principal, coordinator and a group of faculty from various departments monitor the coaching programme regularly. The progress of the students is evaluated on the basis of their results in the arrear examination.

DBIT undertakes various programmes for slow learners through remedial classes. For slow learner's Remedial courses, coaching classes and students counselling program are initiated. Further the faculty members also put efforts to provide guidance for the slow learners. This has greatly helped to improve the performance of students in their examinations.
