Department of Computer Science & Engineering

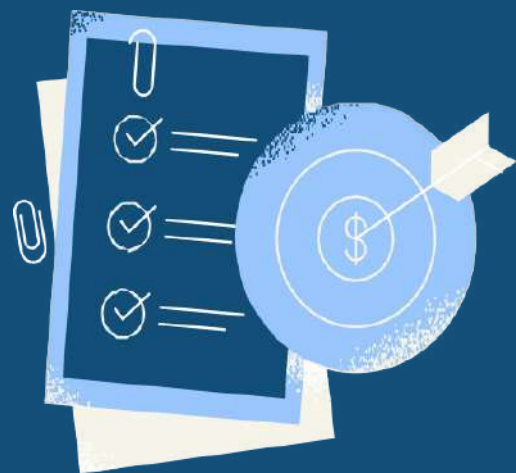

VISION

To be a center of excellence, enabling students in the area of Computer Science & Engineering to become successful and socially responsible software professionals.

Mission

- To impart knowledge that builds software skills with logical and structured thinking.
- To provide training on the usage of software tools for developing applications in the multiple domains of Computer Science & Engineering.
- To create entrepreneurial manpower to serve in industry, academia, and social setting.
- To inculcate professional ethics and concern for the environment so that it benefits society.

HOD's Message

Dr. K B Shiva Kumar
Professor & Head
Department of Computer Science & Engineering

Welcome to Department of Computer Science & Engineering, DBIT.

The Department of Computer Science and Engineering welcomes you to be a part of the thriving computer science community and become visionaries and change makers of the future. Department of CSE came into existence in the year 1991 with an intake of 60 and at present, the department has an intake of 180. Our distinguished faculty members ensure a wide range of diverse learning experiences ranging from the fundamentals of Computer Science, Core Courses, Programming, Emerging Technologies like Big Data Analytics, Data Mining, IoT, AI, Machine Learning, Cyber Security, Block-chain, Professional Ethics, Research Methodologies and Open-Source Technologies—to name just a few.

Information technology, in recent years, has become overwhelmingly pervasive, while its parent, computing science, has become correspondingly hard to find. Our Department of Computer Science & Engineering (CSE) is dedicated for ensuring great careers for its students. Our faculty and students are constantly striving to excel and to advance the state of the art in Computer Science and Engineering. Our understanding is that persons who are clear and thorough about the fundamentals can adapt to rapid changes in technology relatively easily. We want the education imparted to our students to be the basis of a life time of learning. Learning is a continuous process and does not end with the acquisition of a degree, especially because steady and rapid advances in computing technologies shorten the life of tools and techniques prevalent today. Therefore, we do not aim to make our students walking manuals of any language or package. Instead, they are given a strong foundation in computer science and problem-solving techniques, and are made adaptable to changes with a strong emphasis on Context & project-based learning through mini projects, industry visits, guest lectures, student activities & Leadership events, professional societies like Computer Society of India and incubation center. Well maintained labs with all open-source technologies and all latest tools and software. We believe that this approach to teaching-learning, coupled with practical experience gained during Industrial Training in reputed organizations, equips our students to handle the challenges posed by the software industry. I am confident that one can find our students worthy of the organization where they join.

The Department is proud to have a strong-alumni-network, many of whom hold influential positions in the Information Technology industry and academia, at both, national and international levels. We look forward to having talented students, researchers, academicians, and professionals join us and augment the healthy and competitive learning atmosphere we have on campus! Also, CSE department is having MoUs with some of the best organizations and trying to strengthen them further

The placement record of eligible students from last many years is very good and are working in reputed IT companies. Students along with the teachers constantly involved in exciting and interesting problems/projects to explore and innovate new methods and finding sustainable solutions, published in various national and international journals. It remains as the most preferred choice of all the student's seeking admission in DBIT. We as a team sincerely welcome the young talent who aspire to pursue studies, to educate, or to innovate in the area of Computer Science. So Come and Join us.

Student Achievements

Internal Smart India Hackathon 2022 was organized by Department of Research and Development on 31 March 2022 at 11:00 am held at SH1 by Department of Research and Development Sincu kumar 7th Sem, CSE and his team won the Hackathon.

Internal Smart India Hackathon 2022

- More than 100 students have completed online courses from NPTEL, Coursera, Udemy, PentesterLab, Sololearn, etc. in the latest computer science topics.

SPORTS

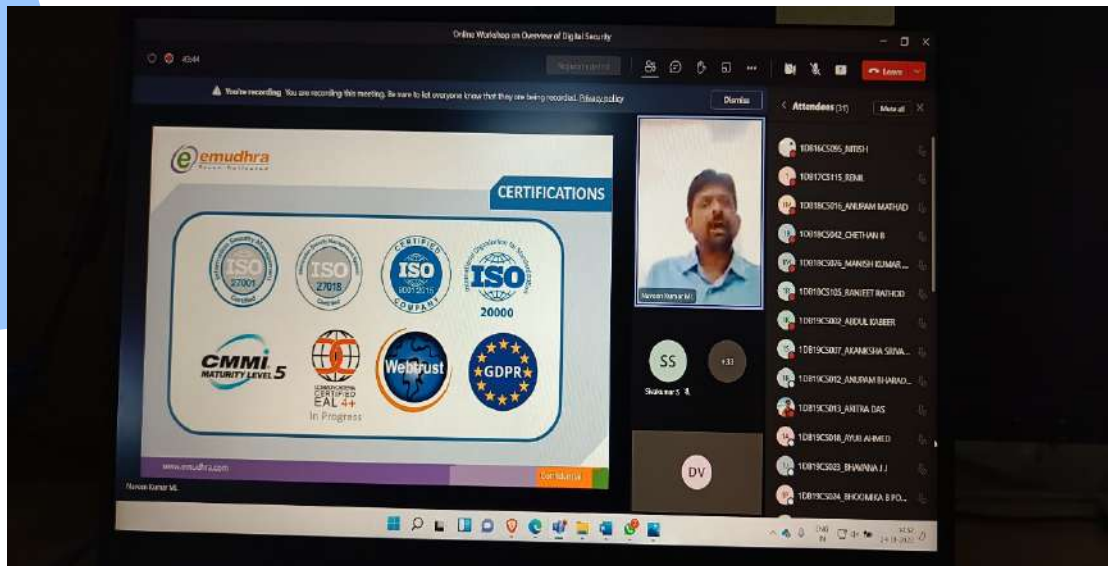

T. Sri Ram Charan 7th sem participated in All India Inter University Baseball (Men) Competition to be held at "Savitribai Phule Pune University", Pune from 14th to 18th March 2022

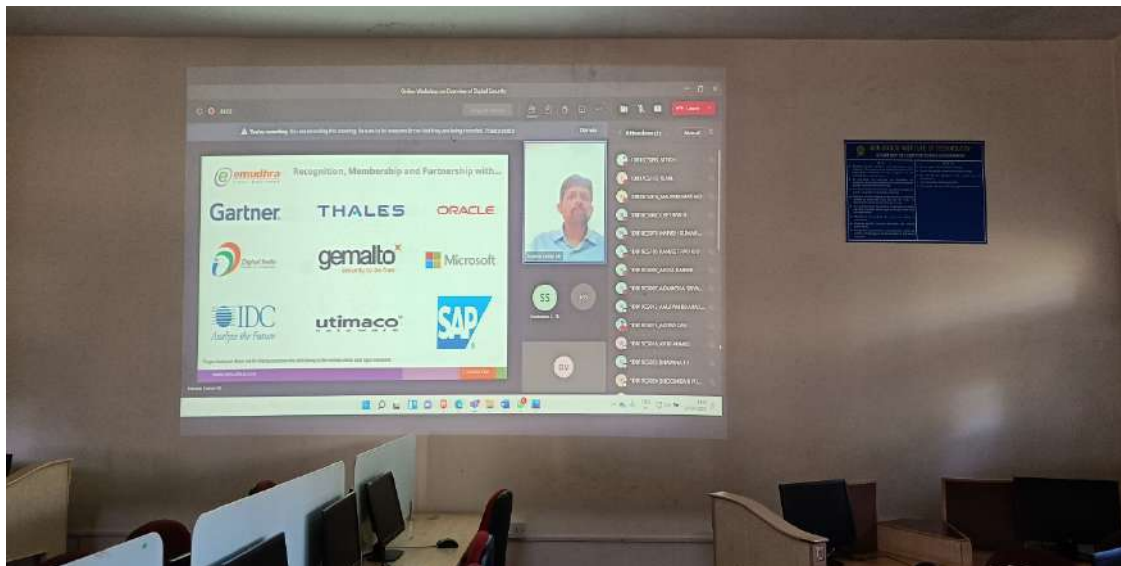

Sharath N 7th Sem participated in South Zone Inter University Chess (Men) Competition to be held at "SRMIT University, Kattankulathur (TN), from 1st to 3rd March 2022

EVENTS

One day Workshop on “INNOVATION IN DIGITAL SECURITY” Organized by Computer science and Engineering in association with Institution’s Innovation Council-DBIT Held at CSE Laboratory-5, DBIT on 24th January 2022 at 11:30 am. Resource person Mr. Ashwin K, Senior Manager, Production eMudhra and Mr. Naveen Kumar M L, Senior Manager, GRC eMudhra.

eMudhra certification details briefed by Mr. Naveen Kumar

eMudhra recognition, membership and partnership with other organization details briefed by Mr. Naveen Kumar

One day Workshop on “Entrepreneurship skill, Attitude Behavior Development” Organized by Computer science and Engineering in association with Institution’s Innovation Council-DBIT Held at New seminar Hall, DBIT on 11th Feb 2022 at 11:00 am to 1.00 pm. Resource person Vinay Harista, Technical Director, Vtricks Technologies, Bangalore

Speaker addressing the students

Active participation of students

A Talk on "IEEE Xplore Digital Library" Organized by Computer science and Engineering and Dept of Library and Information center Held at Lab 5 CSE, DBIT on 6th April 2022 at 11:00 am. Resource person Mr. M S Srinivasa Training Manager (Karnataka and Telangana) EBSCO Information Services and IEEE Xplore Digital Library.

IEEE Xplore Digital Library

WILANIOS Forum Activity

One day Workshop on “Hands on session on Java” Organized by Computer science and Engineering on 29th April 2022 at 9:00 am. conducted for 6th Sem students. Distinctive Session Speakers: Our 8th Sem Students who are trained on Java Full Stack Development by C2TC Capgemini Techno serve.
