2.5.2 Mechanism of internal assessment is transparent and robust in terms of frequency and variety

Response:

The conduction IA Tests is centralized. Three Mid-term Internal Assessment Tests are conducted for theory courses and one laboratory test is conducted. The schedule of IA Tests is announced at the beginning of the semester through the Institutional Academic Schedule which is prepared based on the calendar of events of the university. The timetable of the IA Test is displayed on the notice board one week before the commencement of the test. The dept-wise test coordinators and evaluation coordinators headed by a senior Professor ensure the entire process of conduction of tests. Faculty members frame a set of two different test question papers for each theory subject adhering to VTU examination standards. Particular test question paper that is printed for distribution is selected by the Principal. Revised Bloom's Taxonomy and Outcome-Based Education (OBE) in which Course Outcomes (CO's) are attained is followed while framing the test question papers. A centralized evaluation system is followed, where faculty members evaluate the test blue books at a central place and complete the evaluation in the prescribed time limit of 3 days. The theory subject coordinator prepares the scheme and solution for the test question paper

the guidelines are given by VTU, AICTE, and State government act. All circulars regarding academics, extra curriculum and co-curriculum activities circulated to the students, teaching, non-teaching staff are displayed in Notice boards and College website. Different committees are formed to plan and execution of auxiliary functions which are communicated to all stakeholders of this institute.
